

Project of the month february 2006

Dicky's Grand Café, Amsterdam - Netherlands

When entering the café, an 8 metre high wall covered with striped carpet immediately catches your eyes. Looking down - the carpet becomes upholstery - covering the extravagantly pillowed wall bench before it continues down and over the floor...

This intense, yet cosy and comfortable atmosphere was conceived by Michel Ruijgrok of the ESTIDA (Estetisch Interieur Design Amsterdam).

Dicky's Grand Café opened on 23 December, 2005 and has been busy since day one.

C A R P E T S

The "spectrums" design from the "Soft Landscapes by Marco Piva" collection as wall, bench and floor design.

ege®

We create more than carpets

The straight lines are bent to perfectly match the curving of the balcony floor.
